Professional Summary

Computer Science undergraduate with strong foundations in Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, and Software Development. Experienced in developing full-stack web applications using React, Node.js, Express.js, MongoDB, and REST APIs. Skilled in C++, Python, JavaScript, SQL, and Git. Seeking a Software Developer or Full Stack Developer internship opportunity to apply problem-solving and development skills in a professional environment.

Technical Skills

Programming Languages: C++, Python, JavaScript, SQL

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL, PostgreSQL

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Developer Tools: Git, GitHub, VS Code, Postman

Other: API Integration, Authentication, Responsive Web Design

Education**Bachelor of Technology in Computer Science and Engineering**

Central University of Technology, India

2024 – 2028 | CGPA: 8.5/10

Senior Secondary Education

ABC Senior Secondary School, Rajasthan

2024 | 89%

Projects**Resume Analyzer — Full Stack AI Application****React.js, Node.js, Express.js, MongoDB, REST API**

- Developed a web application that analyzes resumes and provides ATS compatibility scores based on job descriptions.
- Implemented resume upload functionality using Multer and PDF text extraction.
- Built REST APIs using Node.js and Express.js for resume processing and analysis.
- Integrated AI-based resume analysis to identify missing keywords, skills, and improvement areas.
- Designed a responsive frontend using React.js and Tailwind CSS.
- Implemented MongoDB database integration for storing user and resume information.

E-Commerce Web Application**React.js, Node.js, Express.js, MongoDB**

- Developed a responsive e-commerce platform with product listing, search, filtering, and cart functionality.
- Created RESTful APIs for products, users, authentication, and orders.
- Implemented user authentication and authorization.
- Integrated MongoDB for persistent data storage.
- Used Git and GitHub for version control and project collaboration.

Face Recognition Attendance System

Python, OpenCV, NumPy

- Developed an automated attendance system using face recognition.
- Implemented face detection and recognition using OpenCV.
- Stored attendance records with timestamps for individual users.
- Reduced manual attendance tracking through automated identification.

Experience

Software Developer Intern

Tech Solutions Pvt. Ltd. | May 2026 – July 2026

- Developed and maintained responsive web application components using React.js and JavaScript.
- Built backend REST APIs using Node.js and Express.js.
- Integrated frontend applications with backend services and databases.
- Worked with Git and GitHub for source control and collaborative development.
- Debugged application issues and improved overall application performance.
- Participated in code reviews, testing, and feature development.

Certifications

- Data Structures and Algorithms — Online Certification
- Python for Data Science — Online Certification
- Web Development with React.js — Online Certification

Achievements

- Solved 100+ Data Structures and Algorithms problems on LeetCode.
- Participated in coding contests and technical hackathons.
- Built multiple software development and AI-based projects.
- Maintained projects and source code using GitHub.

Relevant Coursework

Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering, Computer Architecture, Probability and Statistics.

Additional Information

Languages: English, Hindi

Interests: Software Development, Artificial Intelligence, Problem Solving
